Exhibit at the 2026 SAFMA Conference: A journey to excellence

The SAFMA Conference is where Africa's facilities management community comes together to exchange ideas, spark meaningful connections, and explore emerging opportunities. As an exhibitor, you are invited to join a dynamic environment that celebrates growth, innovation, and collaboration across the FM landscape.

Over two days of interaction and engagement, the exhibition space offers your organisation the opportunity to:

- Showcase your brand to decision-makers, practitioners, and innovators who are actively seeking solutions, partnerships, and fresh thinking.
- Connect with professionals across all levels of the FM sector, building networks that extend beyond the exhibition floor.
- Strengthen visibility, credibility, and brand presence within a highly engaged and motivated community.

Your exhibition stand is strategically designed to position your organisation at the centre of the action, giving you the perfect platform to engage directly with industry professionals and demonstrate the value you bring to the future of facilities management.

This is your moment to be part of an experience shaped by purpose, progress, and connection.
